PUBLIC AUCTION OF GOVERNMENT LANDS  
AT SALMO, B.C., ON WEDNESDAY, OCTOBER 15TH, 1924, COMMENCING AT 10 A.M.

THERE will be offered for sale some 2,400 acres, which has been subdivided into 60 blocks ranging from 25 to 75 acres each, chiefly level bottom land.

Until recently the land was known as the Davis & Sayward timber leasehold and is situated on Salmon River. The Nelson and Fort Sheppard

Railroad and the Nelson and Spokane Highway serve the district.

Terms of sale to other than British Columbia returned soldiers, one-quarter of the purchase price on day of sale, the balance in three equal annual instalments with interest at the rate of 6 per cent. per annum on the deferred payments.

British Columbia returned soldiers will only be required to pay 10 per cent. of the purchase price on day of sale and the balance in ten equal annual instalments with interest at 6 per cent. on the deferred payments, and may also obtain a rebate for every acre cleared and cultivated within that period, such rebate not to exceed the price of the land.

In case of blocks on which improvements exist, such improvements, at the Government valuation, must be fully paid for on the day of sale, if bought by other than the person responsible for same.

For any further particulars apply to the Government Agent, Nelson, or the Department of Lands, Victoria, B.C.

Such notice shall be published in the British Columbia Gazette and in one daily and one weekly newspaper freely circulating in all parts of the Province. When the proposed Private Bill is of a local nature, the notice shall be furthermore published in some newspaper in the electoral district affected, or if there be no newspaper therein, then in the nearest electoral district in which a newspaper is published. Such notice shall in all cases be continued for a period of six weeks during the interval of time between the close of the next preceding Session and the consideration of the petition.

72. No Petition for any Private Bill shall be received by the House after the first ten days of each Session, nor may any Private Bill be presented to the House after the first three weeks of each Session, nor may any Report of any Standing or Select Committee upon a Private Bill be received after the first four weeks of each Session, and no

And if this Rule shall be suspended or modified as aforesaid the promoters of any Private Bill which is presented after the time hereinbefore limited, or for which the Petition has been received after the time hereinbefore limited, shall in either case pay double the fees required as herein mentioned, unless the House shall order to the contrary. Any person seeking to obtain any Private Bill shall deposit with the Clerk of the House, eight clear days before the opening of the Session, a printed copy of such Bill, a copy of the Petition to be presented to the House, *together with copies of the notices published.* Such publication to be proved by affidavit or declaration to the satisfaction of the Clerk of the House. At the time of depositing the Bill, the applicant shall also pay to the Clerk of the House the sum of three hundred dollars. If a copy of the Bill, Petition, and notices shall not have been so deposited in the hands of the Clerk of the House at least eight clear days before the opening of the Session, and if the Petition has not been presented within the first ten days of the Session, the amount to be paid to the Clerk shall be six hundred dollars. Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the General Act is proposed to be departed from. Bills which are not framed in accordance with this Rule shall be recast by the promoters and reprinted at their expense before any Committee passes upon the clauses.

Three hundred copies of each Bill shall be deposited with the Clerk of the House immediately before the first reading. If amendments are made to any Bill during its progress before the Committee on Private Bills, or through the House, such Bill shall be reprinted by the promoters thereof.

By Rule 83, a model form of Railway Bill is adopted. A copy of same can be obtained upon application to the Clerk.

*Definitions.*—By *isolation* is meant the separation of persons suffering from a communicable disease, or carriers of the infectious organism, from other persons, in such places and under such conditions as will prevent the direct or indirect conveyance of the infectious agent to any person.

By *incubation* or *quarantine* (these terms being synonymous for the purpose of these regulations) is meant the limitation of freedom of movement of persons who have been exposed to communicable diseases for the period of time equal to the incubation period of the disease to which they have been exposed.

4. In cases of any one of the communicable diseases named in Regulations 2 and 3, the M.O.H. may, if he is satisfied as to the effectual isolation of the patient, permit those who do not have the direct care of the patient or patients to leave the premises in order to attend to their regular duties; *except* when such individuals are employed or in any way engaged in the handling or preparing of food or are associated with children away from the quarantined house. Such individuals must, if they desire to attend to their regular duties, change their residence in a manner satisfactory to the M.O.H.

5. If satisfactory proof of a previous attack in the case of a contact of a case of whooping-cough, measles, German measles, mumps, anterior poliomyelitis, or chicken-pox is submitted to the M.O.H., such contacts may be released.

6. Except as in Regulation 7, teachers or children in a quarantined house shall be excluded from school, college, university, or other institution of learning, unless such teachers or children change their residence in a manner satisfactory to the M.O.H., under which conditions they shall not attend such school, college, university, or other institution of learning until the period of quarantine for the disease to which they have been exposed has elapsed.

7. In case of teachers or children in a house quarantined for chicken-pox, German measles, mumps, measles, or whooping-cough, the M.O.H. may, if he is satisfied as to the effectual isolation of the patient and satisfactory proof is given that such teachers or children have themselves at some previous time had the disease for which the house is quarantined, allow them to attend school, college, university, or other institution of learning without changing their residence.

8. The M.O.H. shall be satisfied that the cleansing and disinfection of any house, building, car, vessel, or vehicle, or any part thereof, and of any article therein likely to retain infection, are satisfactorily carried out before the quarantine is removed.

9. No person shall let for hire, cause or permit any one to occupy premises previously occupied by a person ill of any communicable disease until such premises shall have been disinfected under the supervision of the Medical Officer or official acting

under his instructions, in accordance with the regulations of the Provincial Health authority.

10. Whenever the order or direction of the M.O.H. requiring the disinfection of articles and premises is not complied with, the M.O.H. shall forthwith cause to be placed upon the door of the premises a placard in word and form as follows:—

WARNING.

.....is a communicable disease. These apartments have been occupied by a..... patient and may have become infected. They must not be again occupied until my orders directing their renovation and disinfection have been complied with.

This notice must not be removed under penalty of law, except by an authorized health official.

.....  
*Medical Officer of Health.*

11. Every doubtful case of a communicable disease shall be classed and dealt with as if it were a case of communicable disease until such is disproved.

12. No milk-container shall be returned to any dairy or milk-vendor from a house while under quarantine.

13. No person from a house in which there is a patient suffering from smallpox, scarlet fever, typhoid fever, paratyphoid fever, septic sore throat, dysentery, Asiatic cholera, or diphtheria shall handle milk, butter, or any other dairy product which is to be sold or given to any party or delivered to any creamery or butter-factory, nor any utensil or container used in connection therewith. Any of these products may be distributed under precautions to be laid down by the M.O.H.

14. Every physician shall report forthwith in writing to the Secretary of the local Board of Health the death from any communicable disease of any patient under his care, within twelve hours thereafter.

15. The Secretary of the local Board of Health must report at least weekly to the Provincial Board of Health all cases of communicable disease occurring within his municipality.

16. In all communicable diseases where the discharges from the nose and throat or other secretions or excretions of the body are likely to contain the infectious agent of the disease, such discharge must be immediately collected and destroyed.

17. When any of the communicable diseases named in Regulation 2 exist in any municipality, the Provincial Board of Health may, with the consent of the Minister, prevent any person or persons from passing to or from such municipality, and may, for this purpose, prevent the transportation of any person or persons to or from the municipality by means of any boat, vessel, steam, electric, or other car, carriage, vehicle, or premises. It shall be the duty of the local Board of Health, the corporation of the municipality, any or every officer

thereof, to assist in every possible way in carrying out the provisions of this and every regulation of the Health authority.

#### DIPHTHERIA.

18. A suspected case of diphtheria must be isolated until the diagnosis is confirmed or disproved. A clinical case of diphtheria must be isolated, even if the results of the laboratory examination are negative.

19. So-called membranous croup shall be classed, quarantined, and cared for in the same manner as diphtheria.

20. The quarantine of cases of diphtheria in public institutions where the population is resident shall be governed by both clinical and laboratory examinations. Immediately after the appearance of a case of diphtheria in an institution, the Medical Officer of Health shall notify the Provincial Board of Health, which shall supply facilities for taking cultures, if necessary, from all residents of the institution. All individuals in such an institution, whether sick or well, who are found to be harbouring diphtheria bacilli shall be quarantined until a negative report is made upon nose and throat cultures. They shall then be properly cleaned and disinfected and held in quarantine as provided for in Regulation 3.

#### TYPHOID FEVER AND PARATYPHOID FEVER.

21. No person affected with typhoid fever or paratyphoid fever or in charge of a typhoid or paratyphoid fever patient shall so dispose of the excreta or other infectious bodily secretions or excretions so as to infect or cause offence or danger to any person or persons, and all faecal discharges shall be placed in a vessel containing an equal quantity of 1 in 500 solution of bichloride of mercury, or any other equally effective, for at least one hour before being finally disposed of.

#### RABIES.

22. When an animal suspected of having rabies has bitten a human being, the fact should immediately be reported to the Medical Officer of Health, who shall secure or cause to be secured such animal alive and without injury if possible. The animal shall be securely chained up and confined in a safe and comfortable place, and a report giving full particulars concerning the action taken sent to the Provincial Board of Health. This report shall include the name of the locality in which the biting occurred (city, town, municipality, or unorganized district); the date of the biting; the name, residence, and address of the owner of the animal, together with the place of residence; and the names, addresses, and residences of all owners of animals which have been bitten by the animal in question, together with a list and description of the animals bitten and the disposition made of same.

Such supposedly rabid animal must be kept under careful observation of the Officer of Health for at least ten days. (If after this interval the animal is alive and well it is not suffering from rabies.)

When the animal dies or is killed, care must be taken not to injure the brain or spinal cord. The head and several inches of the neck of the animal must be cut off, and properly packed (in glycerine) and sent to the laboratory of the Provincial Board of Health for examination.

All persons bitten by the animal suspected of having rabies should at once communicate with the Provincial Board of Health, and be advised as to the necessity of receiving the Pasteur treatment.

#### EPIDEMIC CEREBRO-SPINAL MENINGITIS; EPIDEMIC ANTERIOR POLIOMYELITIS.

23. In every case of cerebro-spinal meningitis or epidemic anterior poliomyelitis, the discharges from the nose, throat, and mouth of the patient must be received on cloths and burned at once. After death or recovery of the patient, all personal clothing and bedding, together with the contents of the room and the room itself, must be thoroughly disinfected under the supervision of the Medical Officer of Health. Every doubtful case of this character must be classed as epidemic and cared for accordingly, until proved to be otherwise.

#### SMALLPOX.

24. Where smallpox is present in any municipality the local Board of Health of the municipality may at once appoint one or more sanitary policemen for the purpose of assisting to arrest the spread of the disease.

If the Medical Officer of Health or Provincial Board require the appointment of any specific number of sanitary policemen, then such number shall be appointed by the local Board. In case the local Board neglects or refuses to make the required appointments, the Provincial Board may appoint as many sanitary policemen for such municipality as it deems necessary; any expense so incurred to be charged to the municipality.

25. Any default on the part of the authorities of any municipality in taking immediate and effective action in carrying out the "Public Health Act," the Regulations of the Provincial Board of Health, or any health by-law in force in the municipality shall be at once reported by the Medical Officer of Health to the Provincial Board, in order that the said Board may take measures as it deems necessary for placing the said municipality in a position to effectively combat the disease.

#### CONJUNCTIVITIS (ACUTE INFECTIOUS); OPHTHALMIA NEONATORUM.

26. Every physician or other person in attendance upon a lying-in woman, immediately following the birth, shall instil into the eyes of the newly born child a sufficient quantity (a few drops) of 1-per-cent. solution of nitrate of silver (supplied free by the Provincial Board of Health), or any other approved preparation.
